EXPERIENCE

Web designer/React Developer	Jan 2025 - July 2025
Expo Tool and Machine Pvt Ltd	Uttar Pradesh, Noida

- Developed responsive front-end of Expo-ERP using React.js, Tailwind CSS, and Bootstrap for production use.
- Built modular React components improving code reusability and UI consistency by 30%.
- Collaborated with product managers to design user-friendly workflows aligned with business goals.
- Designed and launched high-conversion Google Ads landing pages, increasing leads by 18%.

Freelance	Jan 2024 - present
------------------	--------------------

- Designed and deployed [AuraQuill](#) for a digital marketing firm with advanced animations using GSAP & Motion.dev.
- Integrated **Email.js** for seamless form submissions, enhancing communication turnaround.
 - Optimized site performance and SEO to improve search rankings and client reach.

PROJECTS

expomachinetools.com:- Engineered a responsive corporate website for Expo Tools and Machinery Pvt. Ltd. using HTML, Tailwind CSS, Alpine.js, and JavaScript to professionally showcase graphite products and solutions, boosting user engagement.

Task Management & MailBox:- Developed an internal React-based ERP module to manage tasks, monitor progress, and centralize communication, improving operational efficiency.

URL Shortener:- Built a MERN stack application (MongoDB, Express.js, React, Node.js) enabling users to shorten URLs, create custom links, and manage them through a streamlined, user-friendly dashboard.
